

Yarn Market Prices

EmergingTextiles.com covers the **Yarn Prices** on the international market, and on domestic markets in **China, India, Pakistan and Bangladesh**.

100% cotton, 100% polyester and 100% viscose prices are released, along with polyester-cotton, polyester-viscose, and many other blends.

In addition to domestic prices, **export prices** are available for India and Pakistan, whereas **import prices** are displayed for China.

Yarn prices are compared with fiber prices in order to assess the gross margins at spinning plants and how they move. Yarn prices are also compared between domestic markets in China, India and Pakistan.

Historical data covering up to 8 years are available for download.

The Price Reports are published on a weekly or monthly basis and display statistical tables and charts with our market analysis and comments over future trends.

Every report includes a large number of tables and charts with 12-month data available for download.

Below find the list of of our **Yarn Reports** with links to sample pages.

| Price Reports | | | |
|-----------------------------------|-------------------------|------------------------|--------------------------------|
| Yarn Markets | Update | Where | Sample Reports |
| China domestic and imports | Weekly | China | Link to sample |
| India domestic and exports | Weekly | India | Link to sample |
| Pakistan domestic and exports | Weekly | Pakistan | Link to sample |
| | | | |
| Yarn/Fiber Comparison (cotton) | Monthly | China, India, Pakistan | Link to sample |
| Yarn/Fiber Comparison (polyester) | Monthly | China, India, Pakistan | Link to sample |

The Price Database covers yarn prices on the international market and on domestic markets in **China, India, Pakistan and Bangladesh**, along with a **price comparison** between the three countries.

Historical data are available back to a minimum of 5 years and up to 8 years, depending on markets.
